Jamilet Yalan Mendez

jami-yalan.github.io/Portfolio/ | jam.yaln@gmail.com | linkedin/jamyln | Edinburgh, UK - willing to relocate

PROFILE

Service designer with 8 years of experience spanning financial services, healthcare and education across Latin America and the UK. Combines rigorous research practice with a maker mindset to translate complex organisational challenges into evidence-based design recommendations and content that is tested directly with users. Experienced in advocating for user-centred practice with non-design stakeholders and building shared understanding across technical and business teams. Brings fluency in Figma and Miro, an active interest in AI-augmented design workflows, and a track record of delivering digital transformation across large, complex organisations and multi-institutional programmes.

PROFESSIONAL EXPERIENCE

Service Designer | Royal London

May 2025 - March 2026

- Led end-to-end discovery for the Orphan Customers programme, conducting 23 qualitative interviews across three stakeholder groups (protection customers, independent financial advisers and customer service representatives) to map the current service experience and identify systemic gaps.
- Synthesised research findings into 16 actionable insights, reframing the initial problem statement from adviser loss to a broader communications and trust challenge, directly shaping the programme's strategic direction.
- Designed and tested a suite of sacrificial concepts including an onboarding email journey, annual policy communications, a financial confidence quiz and an adviser-matching tool, iterating each concept based on structured user testing with participants who had experienced financial and health vulnerability.
- Produced a full communications audit and redesigned end-to-end customer journey spanning advised and direct-to-consumer channels, incorporating compliance and accessibility considerations in collaboration with legal and marketing stakeholders.
- Facilitated co-design sessions and cross-functional alignment workshops with underwriting, claims, customer service and product teams to build shared ownership of service improvements.

Methods: qualitative research, service blueprinting, sacrificial concepts, iterative prototyping, journey mapping, cross-functional facilitation

Senior UX Designer | Globant Peru

Oct 2021 - Nov 2023

- Designed student onboarding service for Laureate Universities, reducing dropout rates through journey mapping and co-designed interventions with academic and administrative stakeholders.
- Facilitated 20+ cross-cultural co-design workshops spanning four countries to align diverse stakeholder groups on service vision and implementation priorities.
- Led end-to-end design for multinational clients including Autodesk USA, Hospital Albert Einstein (Brazil) and BCI Bank Chile, managing competing stakeholder priorities across technical and business teams.
- Mentored junior designers in service design methodologies and established shared documentation standards across four product teams.

Workshop Facilitator | Repensar

May 2021 - Dec 2024

- Designed and delivered a 3-month Service Design curriculum training 100+ designers across Latin America in service design methodologies, systems thinking and co-creation techniques.
- Achieved 95% student satisfaction through hands-on workshop formats and real-world case studies.

Senior UX Designer | Crehana Mar 2021 - Oct 2021

- Established the UX practice from scratch as the first UX designer in the B2C division, defining team ways of working, ceremonies and deliverable frameworks to make design visible and actionable across product squads.
- Challenged the business assumptions about course discoverability through qualitative research, demonstrating that the root cause was a content gap rather than a search or taxonomy problem, successfully reframing the project scope and securing stakeholder buy-in for an MVP.
- Recruited and mentored a content designer transitioning into UX, supporting their professional development and expanding the team's research and design capacity.
- Increased student engagement through a strategic homepage redesign informed by user research and iterative testing.

Product and Service Designer | Farmacias Peruanas Jan 2020 - Feb 2021

- Redesigned medicine delivery service during COVID-19, creating new protocols for vulnerable and chronic patients and developing an integrated healthcare journey covering prescriptions, medical tests and nutrition plans.
- Implemented recurrent prescription system ensuring stock availability for high-risk patients, improving patient satisfaction by 35%.
- Led design system and service pattern creation for the group's omnichannel platform, managing a junior designer to deliver within a three month sprint.

UX Designer | Interbank Sep 2017 - Jan 2020

- Promoted from UX Trainee to UX Designer after eight months, taking on end-to-end ownership of Interbank's main banking app roadmap.
- Served as lead designer for Interbank's main banking app for two years, owning the design roadmap one sprint ahead of development and conducting field research to inform iterative improvements.
- Redesigned the commercial section of the app promoting financial products, with Extracash (a short-term lending product) seeing approximately 40-50% growth in adoption following implementation.
- Led UX design for Plin in collaboration with BBVA and Scotiabank designers, facilitating co-design workshops to align three competing institutions around a shared user-centred vision.
- Designed a differentiated onboarding journey for first-time credit card holders across two distinct user segments (young adults and homemakers), coordinating directly with marketing teams and external agencies.
- Conceptualised and validated Frilea through Labentana's innovation lab, a service matching unbanked freelancers with gigs while building their credit score, combining field research with expert interviews and prototype testing. Frilea launched as a live product before being discontinued during the pandemic.
- Conducted a 2-day field research sprint with agricultural workers in La Libertad to redesign their payroll access experience, reframing the problem from digital usability to physical access constraints and prototyping a cardless withdrawal solution using existing ATM infrastructure.
- Contributed to Billy, an experimental payments app that won Intercorp's Best Beta App award, supporting iterative design improvements across multiple app iterations.

EDUCATION

MA Service Design | UAL London College of Communication Oct 2023 - Dec 2024

- Major project: designed AfterCare+, a two-sided digital platform for NHS Pioneer Centre, producing fully interactive prototypes for a patient mobile app and a nurse tablet dashboard covering health data tracking, personalised care resources, direct messaging and clinical annotation tools, as well as developing a strategic roadmap using anticipatory innovation methods.
- Live projects with CIPD (career pathways service for young people) and DEFRA (sustainable farming framework for Net Zero 2050 using design futures methods).

BA Industrial Design | Pontifical Catholic University of Peru Mar 2011 - Jul 2017

- 4th year project selected for Global Grad Show at Dubai Design Week 2017. 5th year project awarded Critic's Award at PUCP Design Exhibition.

SKILLS AND TOOLS

Design and Prototyping: Figma, Miro, Adobe XD, Sketch, Adobe Creative Suite, Claude Code

Research and Testing: Qualitative interviews, service safaris, contextual inquiry, participatory design, usability testing, Maze, UserTesting

Service Design Methods: Service blueprinting, journey mapping, systems mapping, co-design facilitation, sacrificial concepts, anticipatory innovation, Double Diamond

Agile and Collaboration: Scrum, sprint planning, cross-functional facilitation, stakeholder management, Notion

AI and Emerging Tools: AI-augmented design workflows, prompt engineering, HTML/CSS/JavaScript (AI-assisted prototyping)

Languages: English (advanced), Spanish (native)

AWARDS AND RECOGNITION

- Selected Exhibitor | Global Grad Show, Dubai Design Week 2017
- 1st Place | Innovation Award, Interbank
- Critic's Award | PUCP Design Exhibition
